UCIMU-SISTEMI PER PRODURRE

Horizontal Machining Centers from Mandelli

Continuous improvement of the product, efficient resource management, design and construction of complex performing machines which are highly customized and maintain their reliability over time in order to guarantee Mandelli's customers the utmost satisfaction. A winning philosophy, gained through decades of experience in the manufacturing of horizontal machining centers, allowing Mandelli Sistemi SpA to consolidate its market position in key sectors of the manufacturing industry such as Aerospace and Energy.

The company, founded in 1932 as a workshop focusing on the precision machining of mechanical parts, has become a landmark of machine tools with more than 4,000 machining centers installed all over the world.

The need to ensure the success over time, especially in an increasingly demanding global market, has led the company to start an innovative process of intensive improvement on the entire organization according to the " Lean " logic, methodology and philosophy with the aim of reaching that kind of efficiency and effectiveness which are the basis of value added companies.

A success that many customers still confirm every day when they choose Mandelli's Machining Centers.

The project **Piattaforma India** has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and ASSOCOMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from/with Italian companies can contact below mentioned address for any assistance:
