Machining Centers with 4,5 and 6 controlled axes

Continuous improvement of the product where mechanics and IT blend to create extremely performing machines. Efficient resource management and KPI parameters to monitor the Company performances, tackle the critical issues and incentivize the best practices. The identification of two strategic markets such as Aerospace and Energy where Mandelli's consolidated DNA in manufacturing horizontal machining centers can express its best. These are the three key factors that have brought Mandelli back to success over the last few years
